

**Dear patients, dear guests of Davos,**

Welcome to the Derma Medizin Davos homepage. This page will provide you with information about our office, staff, and policies. We welcome all visitors and patients to our web site.

Since March 2005 Davos offers all patients suffering from skin diseases and allergic disorders the possibility to get high quality medical examination and therapy.

Rainer Disch, MD, former co-head of the Klinik für Dermatologie and Allergie Davos-Alexanderhausklinik- and Volker Junghans, MD, have founded the Derma Medizin Davos GmbH, an institution which aims to provide the inhabitants and the visitors of Davos with state of the art medical care in the fields of skin diseases and allergic diseases including asthma (wheezing). Rainer Disch is specialist for Dermatology and Venereology, Allergology and Clinical Immunology FMH and for Internal Medicine. Volker Junghans is specialist for Dermatology and Venereology and Allergology. He is also educated in the field of nutritional diseases.

Together, both have great experience in all kinds of skin diseases and allergic diseases.

If you have acute medical complaints or you suffer from a chronic skin or allergic disorder and need additional medical advice we are pleased to see you in our office and we will give every effort to solve your problem.

The physicians and staff of Derma Medizin Davos seek to provide the highest quality of healthcare to our patients. We pledge compassionate, timely, and confidential care. Our doctors and staff are committed to the academic standards of education, teaching, and research, ensuring that our patients have access to the most advanced procedures and the most comprehensive information available. During your visit to our office you may see one or both of our doctors depending upon the nature of your problem. Our team approach is designed to facilitate your care in a timely manner.

**The location** of our office is in the centre of Davos Platz, near to the Graubündner Kantonalbank (see details at the end of this text). Although the office rooms are placed in a typical old-fashioned Davoser house called “Guardaselva”, inside you will find a modern medical centre equipped with high standard medical devices.

**Office Hours / Appointments:** Our office hours are Monday, Tuesday, Wednesday and Thursday 8:00 a.m. to 12:00 a.m. and 14:30 to 18:30 and Friday from 8:00 a.m. to 4 p.m. Patients are seen on an appointment basis. For urgent problems that require immediate attention, please call our office as early in the day as possible and ask to speak with a doctor. Based on your condition, we will make every effort to see you the day of your call.

**Our healthcare professional,** Mrs. Doris Ertl will answer your questions, schedule appointments, and provide billing information. Please ask for her assistance when needed. We are dedicated to providing personal, quality care.

#### **Special information for Patients with eczema or psoriasis**

We are equipped with an excimer laser and multiple UV 311nm - phototherapy cabins. So we are able to treat all forms of eczema and psoriasis, especially chronic forms, within quite short periods of time.

#### **Special information for Patients with sun damage of the skin or atypical moles**

Nowadays, we have learned that sun is not only beneficial but may also be harmful in some cases as sunbathing is able to promote skin cancer. A short examination of the skin through a dermatologist reduces the individual risk clearly. This is enhanced by the use of epiluminescence microscopy in our office.

Actinic keratosis and basal cell carcinoma can be cured with very good cosmetic results by photodynamic therapy (PDT). If you have questions about this non-surgical method please contact us.

Atypical moles are investigated by epiluminescence microscopy and lesions suspicious for cancer will be surgically removed according to European guidelines on the same day.
